Ref. No. DGC/N/322/2024   Date: 19/07/2024

We are pleased to announce that our Domkal Girls' College will be conducting a demonstration of our new smart class equipment. This equipment is designed to enhance the learning experience for our students and provide teachers with innovative tools to engage and instruct.

During the demonstration, you will have the opportunity to see the equipment.

We invite all teachers, staff, and students on 19/07/2024 at 1pm in room A-204 to attend this demonstration and learn more about the exciting technology available in our smart classes.

Developed in collaboration with IIT Bombay, K-Yan (The Knowledge Vehicle) is an award winning, portable, easy to use integrated device that converts any wall or hard surface into an interactive & collaborative learning surface. As the world's first Community Computer, K-Yan pioneered interactive group learning in classrooms. K-Yan includes sophisticated features and cutting edge technologies to facilitate interactive & dynamic group learning across subjects and learning methods.

All-in-one portable EdTech device designed to make teaching learning rich, engaging and efficient.

TEACH

Knowledge Classrooms
Pre-loaded with 2D/3D multimedia content, K-Yan facilitates better understanding of concepts

Empower Teachers
K-Yan with its in-built interactivity empowers teachers to improve student engagement in classrooms

Global Resources
Internet connectivity enables access to a wide library of educational resources

LEARN

Capacity Building
The large screen projection capability of K-Yan allows for group training programs

Information Dissemination
The portable design of the K-Yan makes it a handy information dissemination tool

Communication
Equipped with a web camera and internet connectivity, K-Yan facilitates video conferencing

COLLABORATE

Television
K-Yan converts into a large screen TV when connected to a set-top box

Home Theatre
Enables a home theatre like experience with large screen projection and superior audio

Gaming
K-Yan can be connected to various gaming consoles delivering a lifelike gaming experience.

Highlights

All in One Device
Multiple Technologies Available at hand

(1)

(2) **Portable**
can be moved from one to another classroom

(3) **Time to Task**
Less than 2 minutes to set up

(4) **Ease of Use**
Plug & Play, single cable device

(5) **Safety**
Can be locked in a classroom cupboard

(6) **Inbuilt Interactivity**
Converts projected screen to Virtual Interactive Board

(7) **Accessibility**
Wide Library of Information with Internet Connectivity

(8) **Versatility**
Easily used for outdoor school events

(9)

(10) **Future Ready**
Act as Local Cloud and connects to Student devices

Virtual Classroom
Video Conference Ready

Our Impact:	9 Countries	80,000 Units Deployed	15 Mn Students	1 Mn Teachers

SCH●OLNET
